NORWAY AND VICINITY.

Have you those bank books? See ad.
Good organ for sale at A. W. Faunce's.
Cattle Show Ball next Wednesday evening.

Grand exhibition at Elliott's Clothing Store for the next three months.
Rev. F. C. Rogers, a former pastor, will preach at the Methodist Church next Sunday.

Mrs. H. W. Twombly has something to say about what may be found at her store.

The afternoon express over the G. T. R. R. for Portland was discontinued last Monday.

The Advertiser will be issued one day late next week that a full report of the Cattle Show may be given.

H. M. Pearce has recently returned from a business trip through the coal and oil regions of Pennsylvania.

M. M. Phinney has just opened a large stock of dress and other goods. New fall styles. See adv.

Miss Hannah Penfold was suddenly called to her home in Gorham, N. H., Wednesday on account of sickness in her father's family.

Rev. W. W. Hooper closes his pastorate with the Universalist Church next Sunday. Service of Song in the evening at the Hall at 7 o'clock.

Read J. F. Huntington & Co.'s adv. A large and new stock of fall and winter goods. Call at their store when you come to the Fair.

Gentry tickets only 15 cents and Chandler's Band of Portland will furnish music at Norway Hall next Wednesday evening.

N. G. Frost on Fore Street, Oxford, raised two and one half bushels of potatoes from six small potatoes. We doubt if this could be beat in Oxford County.

The estimated yields in bushels in the county of Oxford are: Wheat, 50,000; oats, 191,155; barley, 3,000; corn, 150,000; potatoes, 672,735.

First Grand Ball of the season, music by Chandler's Band of Portland. Dance tickets, \$1.00; to gallery, 15 cts. Next Wednesday evening at Norway Hall. You are invited.

Cattle show next week. Those wishing to renew their subscriptions to this paper should avail themselves of the opportunity to do so while visiting the fair.

E. W. Howe invites everybody to call and examine his goods, in another column, before purchasing elsewhere. Mr. H. has just bought the largest stock of goods he has had in his store for years.

New Fall Goods at Whitcomb & Locke's. Colored dress goods in new fall shades, silks, velvets, cloaks, etc. In fact everything kept at a first-class dry goods store.

Mrs. C. M. Packard has all kinds of lace for sale at her house on Main St., opposite the Bakery. She will also sell lace at the Fair next week. She invites all to call and look at her lace.

J. F. Allen has been in Boston the past week and his store is full of new goods and the latest styles. Call in and see them. He has the largest assortment in the County.

Cyrus S. Tucker has something to say of interest to every house owner. Wolf robes have been reduced in price to \$5.50, also buffalo and woolen lap robes at low prices. Call and see them.

We have cause to be proud of the improvement made and being made in our sidewalks this season and last. Quite a large fractional part of our sidewalks are now brick or plank and more is being put in.

American Bibles and Bibles. Jacob, Jr. got their team smashed in Buckfield village Tuesday by colliding with a runaway express train. The wagon was a perfect wreck and Mr. Bibles was badly injured while Mr. Jacob escaped unhurt by jumping from the wagon.

The entertainment by Mr. & Mrs. Dixie for Tuesday and Thursday evenings of next week, will afford our readers a rich treat. Their singing and acting is highly praised by the press, and the fact that they are engaged for the season by the Lecture and Musical Agency, is a sufficient guarantee that the entertainment will be first-class.

"Mr. and Mrs. Dixie," says the Portland Press, "are performers of rare merit, and the musical act will be a decided hit ringing fairly brought down the house." The Boston Advertiser says: "Mr. Dixie is a fine comedian, and Mrs. Dixie has a sweet voice with an equally sweet face."

The Oxford Co. Agricultural Society acknowledge the generous support in the past in making the exhibitions attractive and successful, and would so licit from all something of excellence, or any curiosity, that the extended room in the new building may be filled. Hay will be furnished stock from Monday to the close of the show. Provisions at reasonable rates. Tuesday forenoon will be given to receiving, entering and arranging stock and articles for exhibition. All persons are requested to observe this, and have whatever they propose to exhibit on the grounds or in the Hall as early as possible. No article is entitled to premium unless it is on the ground before 10 a. m. Wednesday, the second day.

Mrs. D. W. Beal of Lewiston, recently handed us the eighteenth number of the first volume of the Oxford Observer printed at Paris, Nov. 4th, 1882. It is a four column folio, well presented, though yellow with age, and well filled with interesting reading. In it we find "A Proclamation for a day of Public Thanksgiving and Praise by Albion K. Parris, Governor of the State of Maine." We read at the head of the editorial column, "We have heard the result of votes given on Monday last, but from few towns." The paper was issued Thursday, which shows it took "some time" to get news then. In the Articles of News we read of a few instances in General La Fayette's memorable visit to America. There is but little more than a column of advertising in the paper. Among the marriages is that of Maj. Henry W. Millet to Miss Harriet Rust, and among the deaths is that of William F. Beal, only son of E. F. Beal, aged 15 months.

Remember the grand ball and Chandler's Band next Wednesday evening.

J. L. Horne & Son are putting in a large sewer in front of the tannery.

Remember the Cattle Show and Fair is next Tuesday, Wednesday and Thursday.

Mr. DeCoster, who has been living in C. H. Haskell's rent has moved to Aaron Paige's.

Best band in the State at Norway Hall next Wednesday evening. Secure a gallery ticket.

John L. Horne has just returned from a week's visit to Massachusetts and New Hampshire.

Roller skates for sale at Massou Bros. Would it not be a good thing for some one to open a skating rink here?

Mrs. E. H. Brown and her sister, Mrs. Elbert Clifford of Paris, have gone on a visit to Rochester, N. H., this week.

The Mason Brothers make a fine display of cutlery, silver plated ware, etc. at their store. You will do well to call in and see them.

You should not forget to call at J. O. Crockett's if in want of hardware. He has the largest and best assortment in town. See ad.

It is estimated that 20,000 strangers were in Lewiston Fair week. The receipts of the four days was \$22,192.35, being \$6,891.88 more than last year.

The Bridget stage started from Norway Saturday afternoon with thirteen passengers, besides the driver. One of the passengers sat on the baggage, and the driver rode on the pole.

The Upper Mill, that has been closed for several weeks past, has been leased by Messrs. Whitcomb & Locke, and is again open for business with T. R. Chase miller.

Orrington Cummings went to the State Fair last week with the "Gipsy Queen" and six horses. He started Monday morning and got back Saturday evening as usual got his share of work.

Uncle Albert Saborin, at the Falls, brings us a generous sample of his grape crop. He cultivates three varieties, the Clinton, Sweet Water and Concord grapes. The Clinton is the one he will sell and the office will attest to their good qualities.

Mr. Frederick Nixon, the renowned soap maker of Portland, has been engaged for the present to superintend the Soap Works of Dennis Pike. Mr. Nixon has a world-wide reputation for being a first class soap maker, and Mr. Pike has been very fortunate in securing his valuable services as Supt. of his Works.

Last Saturday evening, some 35 of Mr. and Mrs. Fremont Sanders friends called and presented Mr. Sanders with a watch chain and Mrs. Sanders with a gold ring, which were both happily received. The occasion was Mr. Sanders' 21st birthday. The company passed a pleasant evening. They were treated to cigars, pears and cake.

Pretty lively temperance meeting last Sunday. A little difference of opinion frequently proves interesting. The speaking was by members of the club as usual and by Rev. Mr. Kimball of Poland, Mr. Risk of Gorham, N. H., Rev. Mr. Hooper and Mr. Chase. The general topic was the tendency of the temperance sentiment at the present time.

The Quilting of the G. A. R. quilt, which took place at headquarters last Friday p. m., was a very pleasant and successful occasion, and resulted in the quilting of the Antagonist Quilt, that becomes the property of the comrade who is the best recruiting officer of Post 54, which is to be decided at the next regular meeting of the Post, the 1st day of October next. There is room for a few more names, if there are any more who wish to have them printed, for ten cents. All names that are handed in to E. H. Brown before the 5th of Oct. can be put on, but after that it will be too late.

We have before us the original muster-roll of Capt. Geo. L. Beal's company (G) of the 1st regiment of Maine Volunteers. This company was organized in April 1861, and was in the service three months. The full number of the company was 76, including officers. The oldest member of the company was Edmund Merrill, who was fitter and aged 44 years. Wellington Hobbs and Alfred True were recruited at 18 years and were as young as the law would allow. The pay roll is an interesting document. It contains the signature of every person in the company, and Major Frederick R. Beal was paymaster. These documents are the property of the present Norway Light Infantry, being presented to them by Gov. Robie. They will be preserved with great care as this was the first service company in the State to respond for the call of troops.

The annual supper of the Portland Yacht Club came off Tuesday night of last week at the Beal's House, the landlord, Mr. Paul, being ex-Commodore. Most of the party arrived here on the right o'clock train and were cordially welcomed. Supper was soon after announced. The dining room was tastefully decorated with bunting, yacht flags and signals, pendant on the walls of the commodore's chair was hung the commodore's flag and also the club flag. The one long table the length of the dining room was decorated with large bouquets of autumn leaves, grasses and evergreens, with a button hole bouquet at each place, flanked by an engraved bill of fare representing yacht scenes. Ample justice was done the menu, which was as follows:

Oysters on shell.

Tomato.

NOTWAY LAKE.

Stephen Pottle has the job of boss painter in the sled factory at Paris, but that does not interfere with his doing jobs of painting outside.

We took a stroll through Albion Buck's orchard the other day, and were surprised to find so many apples on the trees of different varieties. He has an extensive orchard of young trees, but his old trees are doing the principle part of the bearing this year. We should have seen more apples on the 40 to 50 barrels of No. 1 apples of all kinds. Mr. Buck knows how to take care of trees.

James Smith has sold his farm here to Ephraim F. Wood for one thousand dollars.

Miss S. P. Newhall has returned to Boston.

J. C. Saunders is shingling the walls of his stable.

Samuel Partridge is getting along quite comfortably, although he does not yet recover the use of one leg.

C. W. and J. L. Partridge are cooking an enormous quantity of bread and pastry, meats, etc., for the hungry crowd who will visit the Fair next week.

Waterford.

Oliver Porter, of Waterford, has sold out his store to C. D. Morse. He has run the store some thirty-five years, and has been postmaster twenty-five years. He still continues as postmaster.

Rev. Joseph Garland has received and accepted the invitation of the Seaboard Congregational Church and Parsonage at North Waterford to become its pastor.

The corn crop closed for the season Sept. 19th. About 300,000 cans of 26 oz. each have been put up, about 100,000 short of what would have been canned had the season been favorable for corn. The frosts of over two weeks ago nearly ruined the corn planted on low lands. Albert Hill, of East Brownfield, planted twenty acres of sweet corn and estimates that he was damaged by frost some five hundred dollars. The largest amount from one acre was raised by Augustine Ingalls, of this town, 4000 lbs., which brought \$80 at the corn market. So the majority of our farmers think they can make more money in raising sweet corn, and buying western corn, than by raising yellow corn. Those who plant only what they can manage bountifully, get more for their labor than those who attempt to plant a large number of acres with a slight sprinkling of manure. A small farm well tilled, gives a larger income from the capital invested than a large farm half tilled.—Record.

SNOWS FALLS.

A number of people in this vicinity are engaged in collecting eggs and are visiting friends in Boston.

James E. Bird is doing quite an extensive business collecting eggs and selling groceries.

Mrs. Hammond has a Night Blooming Cereus that has lately had seven blossoms, four opening at one time.

A nice rain Monday night, and now look out for frosts.

WEBB'S HILLS.

Webb's Mills like Cardinal Wolsey is now subject to radical changes, ups and downs, than any village we ever knew. Every thing is a dead halt. All places of business were closed; even the loaders had no place of resort to beat the doctoral conical stones. Now all is hurry and bustle. The interest in the iron mine, discovered many years ago, has revived. A stock company has been formed, the crushing mill is on the ground—a massive affair which was driven from Pleasant Falls by 12 strong horses. It is a great curiosity to the people of this vicinity. We apprehend some of the nervous ones, when it commences operations will "Pause and stare all hopeless of relief. And curse the stars which had not made this mine a reality."

A fine carriage road has been built to the mine. The necessary buildings are being constructed under the supervision of an experienced contractor from New Jersey. Smelting works will not be erected at present, but the ore will be reduced to what is called the blue state and shipped to Portland. We recently had a very amusing interview with the agent of the company, Mr. Blake of Portland. He informs us the thing is but an experiment, and if successful an effort will be made to provide easier transportation. Looks well, but the road from Pleasant River near Raymond Village. Then the ore can be easily transported via Rattle Snake Pond to Sebago Lake, striking the R. R. at Standish.

Among our most notable men we cannot but mention Dr. Cobb, who like King Saul towers head and shoulders above all his comrades, standing 6 feet, 5 inches in his stockings and weighing 250 pounds. He has the largest and best educated brain in the section of the country, all of which he seems to have at his tongue's end. He speaks several languages fluently and is a skillful surgeon. He possesses many of nature's choicest gifts, the most valuable of which is an uncommon happy disposition, never fretting or scolding at anything, his bump of don't-carefulness being very fully developed. He pays little attention to vain and noisy if the crop of the head is right; if not, it is all the same—happy go lucky. During the late war he held the office of Brigade Surgeon—in what division we do not recollect—and was said to be a great terror to some of the half-dressed upstarts, who through the influence of some political demagogue had found way into the service. A soldier Edward Weston, from Orlinfield, was wounded in the foot. The gangrene set in and it soon became very painful and betokened the most serious results. The self-sufficient flunky who dominated over the hospital, deemed an amputation necessary, and in spite of prayers and propitiations, poor Edward was told he must submit. The patient was placed upon the table and all things made ready, when a giant form entered the room late, enquired what they were doing, and at the same time proceeding to examine the wound, the attendants staring amazed at his impudence. He declared an amputation unnecessary and ordered the patient to be carried to his bed. "Who the hell are you?" said he would be operating surgeon, soon as he could speak for anger. "You shall know all in good time, my fine fellow," said the good doctor, and at the same time he handed him his discharge, which he had hastily written. He then took the patient under his own special care; and to-day Weston has a good leg, instead of having one carried off by a doctor. The Dr. is a notorious story-teller, oft times keeping a large crowd convulsed with laughter for hours together. The petty annoyances which are the bane of many people's existence, are all passed unnoticed, he standing "Like some tall cliff, which lifts its awful form, Swells in the wind, and midway leaves the storm. Though falling round him, swarms of foes about him, Scattered on his head, he stands, unshaken, From the center, like a pillar of the Lord."

MARK TAPLEY.

ALBANY.

D. A. Cummings has four large oxen on the road drawing his spool strips to market.

They are just commencing to make salt-boxes at McAllister's mills.

Mr. John Cummings is improving in health.

BIRTHS.
